Straive

Empowering Accessibility with AI-driven Efficiency

At Straive, we believe accessibility should be seamless. SPACE is our AI-powered platform, leveraging Large Language Models and intelligent automation to transform how organizations create alt-text, remediate complex file formats, and ensure compliance with accessibility standards, faster, smarter, and at scale. Every AI-driven output is backed by expert quality assurance for uncompromised precision.

AI at the core of Accessibility

- LLM-powered alt-text. QA-validated
- Streamline remediation across multiple content formats
- AI-driven captions and audio description
- Web-based, scalable, and collaborative
- Custom dashboards, and quality management

Proven at scale, Trusted by experts

>1.5M
Images handled annually for alt-text creation

50K+
ePUB files remediated as part of backlist remediation for a client

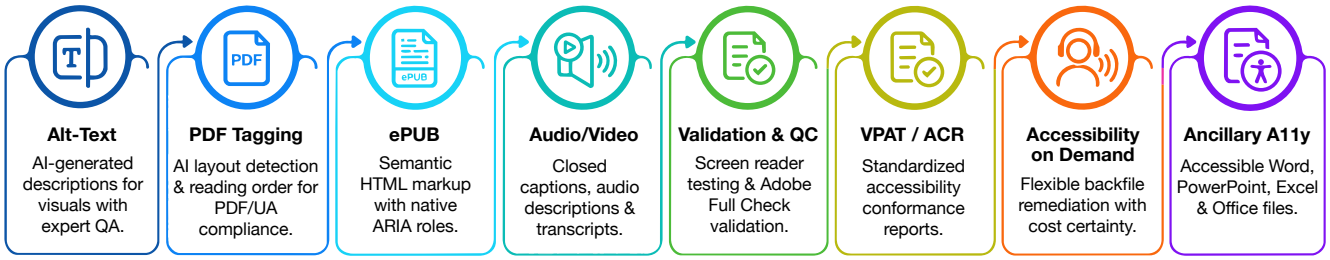

40+
Subject domains

Agentic AI approach

Smarter, Faster & More Connected

- Faster Compliance
- Centralized Collaboration
- Cost Savings

Our Accessibility Services

About Straive

As a data analytics and AI operationalization company, we don't just build top-tier data analytics and AI solutions—we integrate them seamlessly into your core workflows. This approach drives enhanced efficiency, improves user experience, and boosts revenue, setting you apart from the competition.

Serving a diverse range of industries— including Pharmaceutical & Life Sciences, Logistics, Supply Chain & Manufacturing, Research & Publishing, Information Services, EdTech, Banking & Financial services, Retail Tech, and Entertainment & Media— we have a global client base spanning over 30 countries.

Our strategically positioned resource pool operates across seven countries, including the Philippines, India, the United States, Nicaragua, Vietnam, the United Kingdom, and Singapore, where the company is headquartered.
