

Redefining PE Value Creation Through **Data Analytics & AI** **Operationalization**

Powering Alpha—from Origination to Exit

Why **Leading PE Firms Bet on Straive?**

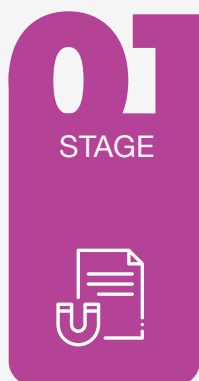

Modern PE demands more than capital—it demands speed, intelligence, and scale. With margins under pressure and legacy systems slowing performance, Straive helps PE firms unlock alpha by embedding Data Analytics & AI across the full investment lifecycle—from due diligence to value creation to exit.

We bring AI-led execution from Day 1—not Day 100—to:

- Backed by EQT, serving 200+ clients in 30+ countries
- Boost EBITDA across PortCos
- Accelerate diligence and reduce risk
- Cut OpEx via AI automation and scale
- Drive smarter decisions with live, trusted data

Straive's **Data Analytics & AI Operationalization Capabilities Across the PE Value Chain**

We help PE firms build intelligent, scalable engines for diligence, transformation, and value realization. Our full-lifecycle support spans sourcing to exit, empowering firms to move faster, smarter, and leaner.

Pre-Acquisition

Setting the foundation for smarter investments

Enterprise Data Capabilities

Portfolio Analytics & Research

Advanced investment signal detection → Real-time dashboards & portfolio models → Data quality monitoring at scale → Optimization engines & scenario modelling

ESG & Sustainability Analytics

Sector-wise ESG risk scoring → Carbon emission modelling → Compliance monitoring & alerts

Post-Acquisition

Maximizing value and ensuring compliance during transition

Risk & Compliance

Portfolio risk heatmaps → Anomaly detection & monitoring → Governance and regulatory alignment → Exit planning insights integrated across monitoring dashboards

PE Playbook in Action: **Selected Use Cases**

From faster deal execution to more intelligent reporting and AI-backed legal workflows, here's how Straive delivers measurable business value across the PE lifecycle.

- **Data Transformation | Private Equity Firm**

- **40% Cost Reduction | 2x Faster Reporting**

- We replaced fragmented systems with a real-time Enterprise Data Hub powered by AI—the result: reduced reporting costs, doubled speed, and 23% improvement in data trust.

- **Leading Indicators | Private Equity Firm**

- **50% Less Manual Effort | Real-Time Dashboards**

- Manual reporting slowed performance visibility. Straive implemented a unified data pipeline with self-service dashboards, unlocking live KPIs and stronger oversight across PortCos.

- **Ops Modernization | Private Equity Firm**

- **30 Processes Standardized | 84% Invoice Backlog Reduction**

- Straive streamlined data operations by defining 73 KPIs, standardizing 30 workflows, and identifying 58 modernization opportunities. The result: faster reporting, reduced backlog, and 282% productivity lift via AI-led execution.

- **Contract Intelligence | Private Equity Firm**

- **Faster Review Cycles | Lower Legal Escalations**

- Straive deployed GenAI to review contracts, flag risks, and suggest edits—streamlining legal workflows, accelerating turnaround, and reducing back-and-forth.

Straive's AI Accelerators: **Built for Private Equity**
